What Displeased Her.
"Why have you quarreled with George?" "Because he proposed to me last night." "Well, there's no harm in that." "But I accepted him the night before." SURRY Stories.

Lives to Be Remembered.
When a man has no longer any conception of excellence above his own, his voyage is done, he is dead. BROOKS

Wanted Smell to Materialize.
John had been taken by his mother for a long ride to see an old aunt who was slow in getting the dinner on the table. John was hungry and could smell the dinner. Finally, in order to hurry things a little, he edged up to the aunt and said: "I'll be so glad when I can taste that smell, won't you?"

Solitudes of the Earth.
The Bushmanland desert, in southwest Africa, is but little known. A few nomads—some of European and some of mixed descent—hang on its fringe. Here and there mat-house villages, whose dwellers depend on the sparse bounty of the sky, will perhaps be found for a season. Otherwise it is a barren desert of 50,000 square miles.

Study in Strength.
The muscles have their periods of development and decline. The lifting power of a youth of seventeen is 290 pounds; in his twentieth year this increases to 320 pounds, and in the thirtieth year it reaches 395 pounds. By the fortieth year it has decreased eight pounds; at fifty the figure is 380 pounds.

Excess of Food Blamed.
Dr. Pritchard, an English practitioner, believes that most of the digestive troubles of infants and young children are due to excess of food. And, besides the direct derangements of the stomach and intestines, these have an effect upon the whole system and may in the long run make it more susceptible to catching other diseases.

Woman's Reserve Power.
Nobody else can leave the impression of holding in reserve so much detailed knowledge of the utmost importance as a neighbor woman when she tells you that some other neighbor woman concerning whose health you inquire is doing as well as could be expected. —Ohio State Journal.

The Motive.
All who have meant good work with their whole hearts have done good work. . . . Every heart that has been strong and cheerful has left a hopeful impulse behind it in the world, and bettered the tradition of mankind. —Robert Louis Stevenson.
